

WEATHERPROOF ENCLOSURES & CLIMATE CONTROL

Available in multiple sizes and depths

NF141208VFA1C-A

14 × 12 × 8 Fiberglass Vented Enclosure

Rugged weatherproof protection with adjustable cooling for sensitive electronics in demanding indoor or outdoor installations.

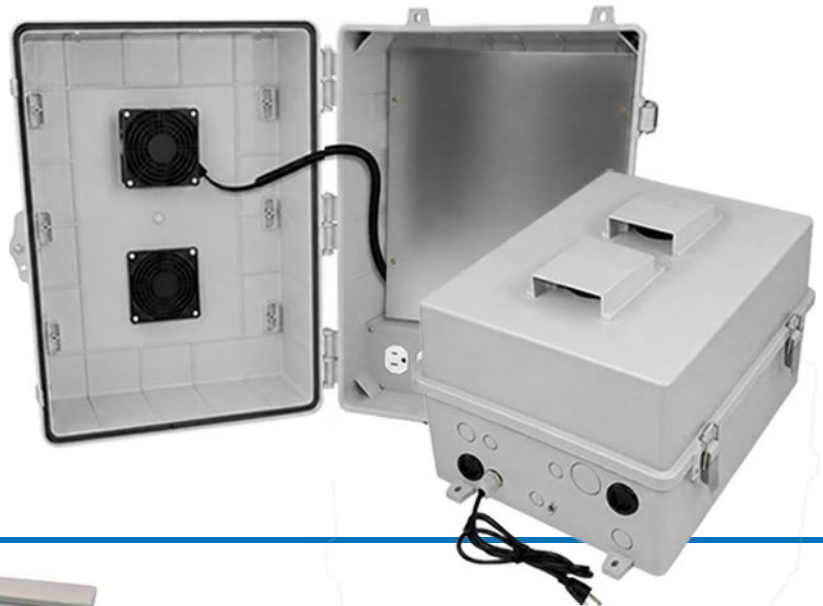

- Adjustable fan control
- (3) 120VAC power outlets
- UV-stable, corrosion-resistant FRP

NP171409VPFA1C

17 × 14 × 9 Polycarbonate Vented Enclosure

A versatile, installer-friendly enclosure with integrated cooling and power for network, AV, security and automation equipment.

- Thermostat-controlled cooling fan
- (2) or (4) 120VAC power outlets
- Aluminum equipment mounting plate

NFC242009D-AZ

24 × 20 × 9 DC-Powered Air-Conditioned Enclosure

Advanced environmental protection for sensitive electronics in remote, outdoor and DC-powered applications.

- 360 BTU air conditioning
- 12VDC, 24VDC or 48VDC models
- NEMA 4X / IP66 weather protection

WEATHERPROOF ENCLOSURES FOR SPECIAL APPLICATIONS

Available in multiple sizes and depths

NF16-SON1-DUAL

Dual Sonos® AMP Enclosure

Purpose-built protection for up to two Sonos Amps with integrated cooling and power for indoor or outdoor installations.

- Custom no-drill Sonos AMP mounting system
- Dual thermostat-controlled cooling fans
- (4) pre-wired 120VAC outlets & power cord

NP17M-STKM-AIM

Aimable Weatherproof Starlink® Mini Directional Enclosure

Protects and securely mounts the Starlink Mini while allowing precise positioning for optimal satellite reception.

- RF-transparent 30° angled mounting system
- Heavy-duty tilt-and-swivel adjustment
- NEMA 4X / IP66 weather protection

NS242424LVFA1-SM

24 × 24 × 24 Steel Pad-Mount Enclosure with Dual Fans & 120VAC Duplex Outlets

Heavy-duty outdoor enclosure for network, AV, security and control equipment.

- Dual thermostat-controlled cooling fans
- (4) pre-wired 120VAC outlets
- Heavy-duty steel plinth for floor or slab mounting
- Galvanized steel equipment mounting plate
