

LCDR SERIES: ENCLOSED RACK SOLUTIONS

Pre-configured for performance, protection, and presentation.

KEY-LOCK SECURITY

Locking front door, rear access cover, and side panels help protect installed equipment.

PRE-CONFIGURED PACKAGE

Includes vented shelves, blank panels, whisper fans, casters, and leg levelers.

ADJUSTABLE RACK RAILS

Two pairs of 11-gauge steel rails with 10-32 tapped mounting holes and printed rack unit markings.

VENTED FOR AIRFLOW

Top vents, whisper fans, and vented shelves support equipment cooling.

MULTIPLE SIZE OPTIONS

Available in multiple heights and depths. Ranging from compact 8U models up to tall 42U configurations.

LER SERIES: LOW PROFILE EQUIPMENT RACK

Enclosed 19-inch AV rack solutions for equipment mounting, protection, and service access.

WELDED STEEL CONSTRUCTION

Durable steel rack construction.

TAPPED E RACK RAILS

Standard 19-inch rack rails support secure equipment mounting

OPEN FRAME ACCESS

Open design allows convenient access for wiring and installed components.

MULTIPLE SIZE OPTIONS

Available in 18U-44U rack heights and multiple depths to fit different installation requirements.

INSTALLATION FLEXIBILITY

Ideal for AV, IT, security, and structured wiring environments.

LXR SERIES: COMPACT RACK SOLUTIONS

Slim open-frame rack solutions for AV installations.

SLIM OPEN FRAME

Fits 19" equipment where standard racks may not fit.

COMPACT INSTALLATION

Ideal for millwork, cabinets, closets, credenzas, and under-counter spaces.

STRONG LOAD CAPACITY

Supports up to 400 lb. with steel frame construction

CABLE-FRIENDLY DESIGN

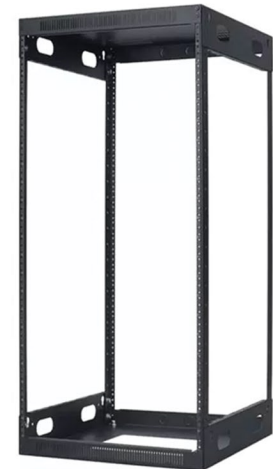

Vented top/base with rear knockouts and side openings for cable management.

MULTIPLE SIZES

Available in 8U, 14U, 22U, and 30U models with 21" depth.

SHIPS UNASSEMBLED

Perfect for economical shipping and easier handling.

LPTR SERIES: PULL & TURN SECTIONAL RACK

Pull-out rotating rack solution for AV, IT, security, and networking installations.

PULL & TURN ACCESS

Slides out and rotates for easier front, side, and rear access.

EIA COMPLIANT

10-32 tapped rack rails with numbered rack units.

DEPTH OPTIONS

LPTR4 models are offered in 19" and 23" depths. LPTR2 models are offered in 19" depth.

MULTIPLE SIZE OPTIONS

Available in 10U-16U sizes.

FLEXIBLE INSTALLATION

Designed for under-counter mounting or custom millwork/credenza applications.

LWR SERIES: WALL-MOUNT SWING-OPEN RACK

Heavy-duty wall racks for AV, security, networking and IT installations.

SWING-OPEN ACCESS

Front section opens from the backbox for easier wiring and equipment access.

WALL-MOUNT DESIGN

Designed for structured equipment-mounting where floor space is limited.

HEAVY-DUTY STEEL

Welded 16-gauge steel construction with reinforced, gusseted corners.

MULTIPLE SIZES & DOOR OPTIONS

Available in 7U to 35U sizes, with optional solid steel, fully vented steel, or smoked plexiglass front doors.

RACK ACCESSORIES: COMPLETE THE RACK. FINISH THE INSTALLATION
