

FTTX-IWP-APC: Low-Profile Fiber Optic Enclosure

Product Snapshot

- Low-profile fiber optic enclosure
- PVC plastic construction with gloss white finish
- Compatible with single-gang wall boxes and trim rings, or mounts directly to flat surfaces
- Includes a factory-installed simplex single mode SC/APC coupler
- Snap-in compatible with LC couplers (sold separately)
- Built-in cable coiling and strain-relief
- 3.5"W x 5.8"H x 0.65"D overall dimensions
- Enclosure cover securely snaps directly to the base, providing a clean and finished aesthetic
- Designed for indoor installation

The LightSpeed Technologies® FTTX-IWP-APC low-profile fiber optic enclosure manages fiber cable and connections in an aesthetic, easy-to-install package.

The FTTX-IWP-APC is designed for indoor installation and mounts directly to single-gang wall boxes and trim rings. Alternatively, the enclosure features multiple mounting and cable entry ports, accommodating direct wall and surface mounting.

The FTTX-IWP-APC ships ready for fiber optic broadband (FTTx) connections with a factory-installed simplex single mode SC/APC coupler and mounting hardware.
