Lowell™

LOWELL RACKS
A FRESH OPTION FOR AV

Already using Middle Atlantic?
Make room for Lowell.

01 AMERICAN-MADE RACK FAMILIES
LXR, LER, LGR and LWR racks are made in the USA using USA-certified steel.

02 OPTIONS FOR YOUR PROJECTS
Choose compact, enclosed, side-by-side or wall-mount rack formats to suit the job.

03 BUILD THE WHOLE SYSTEM
Source racks, cable management, power and connectivity through Future Ready Solutions.

MIDDLE ATLANTIC VS LOWELL

Start with the rack type you already know - then compare the Lowell family that fits the job.

YOUR PROJECT	MIDDLE ATLANTIC	CONSIDER LOWELL
Compact open-frame rack	Slim 5	LXR Series
Enclosed floor-standing rack	ERK	LER Series
Preconfigured enclosed rack	RCS Series	LCDR Series
Racks joined side by side	BGR	LGR Series
Swing-open wall rack	DWR	LWR Series

Comparable rack types - not one-for-one replacements. Match the specific model to your equipment, space and service requirements.

What to check before you switch:

Equipment fit
Confirm usable depth, equipment weight, airflow and rear access.

Accessories
Review any Forward or Lever Lock requirements. Specialty parts may not transfer.

Complete cost
Compare the rack, accessories, freight and installation – not just the frame.

Try Lowell on your next project.

Send us your current rack model or equipment list.
Ask for a Lowell option and a complete project quote.
