Lowell™

LOWELL RACKS
A FRESH OPTION FOR AV

Already using Red Atom?
Make room for Lowell.

01 AMERICAN-MADE RACK FAMILIES
LXR, LER, LGR and LWR racks are made in the USA using USA-certified steel.

02 OPTIONS FOR YOUR PROJECTS
Choose compact, enclosed, side-by-side or wall-mount rack formats to suit the job.

03 BUILD THE WHOLE SYSTEM
Source racks, cable management, power and connectivity through Future Ready Solutions.

RED ATOM VS LOWELL
Start with the rack type you already know - then compare the Lowell family that fits the job.

YOUR PROJECT	RED ATOM	CONSIDER LOWELL
Open-frame floor rack	**REDSR14** 14U skeleton rack	**LXR Series** 8U / 14U / 22U / 30U
Preconfigured enclosed floor rack	**REDRFE floor racks** 18U / 27U / 35U / 42U (V2)	**LCDR Series** 18U / 27U / 35U / 42U
Swing-open wall rack	**REDRFE wall racks** 6U / 12U (V2)	**LWR Series** 7U and larger

Application starting points—not one-for-one replacements. LXR is a floor-rack option; REDSR14 also supports stacking and wall mounting. Match dimensions, loading and included accessories.

What to check before you switch:

Equipment fit
Confirm usable depth, equipment weight, airflow and rear access.

Accessories
Review any Forward or Lever Lock requirements. Specialty parts may not transfer.

Complete cost
Compare the rack, accessories, freight and installation – not just the frame.

Try Lowell on your next project.

Send us your current rack model or equipment list.
Ask for a Lowell option and a complete project quote.
