

Already using Sanus Racks? Make room for Lowell.

01 AMERICAN-MADE RACK FAMILIES

LXR, LER, LGR and LWR racks are made in the USA using USA-certified steel.

02 OPTIONS FOR YOUR PROJECTS

Choose compact, enclosed, side-by-side or wall-mount rack formats to suit the job.

03 BUILD THE WHOLE SYSTEM

Source racks, cable management, power and connectivity through Future Ready Solutions.

SANUS VS LOWELL

Start with the rack type you already know - then compare the Lowell family that fits the job.

YOUR PROJECT	SANUS		CONSIDER LOWELL
Open-frame floor rack	CFR1610 / CFR1615 CFR1620	➤	LXR Series
Preconfigured enclosed rack	CFR2115 / CFR2127 CFR2136 / CFR2144	➤	LCDR Series
Racks joined side by side	Not Available Ganged configuration	➤	LGR Series
Wall-mounted AV rack	Not Available Wall mount	➤	LWR Series

Application starting points—not one-for-one replacements. Stacking, mounting, load ratings and included items differ. Verify specific models.

What to check before you switch:

Equipment fit

Confirm usable depth, equipment weight, airflow and rear access.

Accessories

Review any Forward or Lever Lock requirements. Specialty parts may not transfer.

Complete cost

Compare the rack, accessories, freight and installation – not just the frame.

Try Lowell on your next project.

Send us your current rack model or equipment list.
