

SSF-SWM-SPLIT-WL-E2 Installation

Wall Mount Patch & Splice Fiber Enclosure

FEATURES

Description

Wallmount fiber distribution unit designed to support patching and splicing in one unit. The enclosure has 2 adapter panel positions, allowing for a wide variety of fiber termination connector types. Two compartments separate the network terminations from the distribution terminations and the unit has two outer doors with key lock.

INSTALLATION

The SSF-SWM-SPLIT-WL-E2 is designed for indoor installation. It can accept up to two SSF adapter plates.

1. Select a vertical indoor wall surface with easy access and adequate clearance from other fixtures and power circuits. Installation location should be near a suitable earth ground.
2. Utilize a plywood backer board or fastener anchors as appropriate to the install surface.
3. Mark and install appropriate wall hanging hardware and secure the unit.
